New Narcissus Poetaz Hybrids

N. Poeticus Omatus × N. Polyanthus Varieties

By crossing these two classes, Narcissus Poeticus Omatus being the seed parent, our growers have succeeded in obtaining a perfectly hardy strain of bunch-flowered Narcissus. The individual flowers have all more or less the Poeticus shape and size. Besides being hardy, this class has the merit that they have not inherited the strong, disagreeable scent of the Tazetta Narcissus. They are equally valuable for bedding and forcing. A bed of these Narcissus is simply covered by a dense mass of flowers. They force extremely easy. This is an entirely new strain and has no similarity with varieties of Narcissus known heretofore. This class was awarded the "Award of Merit" of the Royal Horticultural Society in London, April 19, 1904.

We have grown all the varieties listed below this last season and exhibited them during a recent flower show at the "Horticultural Hall," Boston, where we received "Honorable Mention" for same. They were absolutely hardy without the slightest protection, and we cannot too highly recommend them.

REMARKS.

KINDLY GIVE US BELOW SOME NAMES OF YOUR FRIENDS WHO ARE INTERESTED IN GARDENING. KINDLY RECOMMEND US TO THEM, IF YOU CONSIDER US WORTHY.
Rawson's Bulb Guide

Contains the most up-to-date and reliable methods for growing bulbs, either for the house or outdoors. It will also present the purpose and uses of the many bulbs listed herein. Splendid new ideas and suggestions are given and in general will be a constant necessity to the amateur bulb-grower. For this reason we shall omit from this Catalogue all cultural directions and unnecessary descriptions.

RAWSON'S BULB GUIDE will be mailed free to any one who applies for it; also will be included with every order for bulbs if so requested on the Order Sheet.

Rawson's Bulb Handbook for 1909

No expense, time or study has been saved to make this Catalogue perfect, and a careful perusal by our friends must bring forth the statement that we present this year to the American public the most interesting Bulb Catalogue ever published. It is interesting for two reasons: First, it offers an abundance of Choice Novelties, and second, it contains a most complete list of species of bulbs so attractive to the student of botany; but not only to him, for some of our prettiest flowers are raised from the species. For the supply of a great many of the species offered herein we had to look to the Holy Land, Turkey and Siberia, where some have been collected, others cultivated.

QUALITY IS OUR CLAIM. We take great pains to examine every bulb before it is shipped, to insure soundness, size and perfection; we furthermore engage bulbs from only the most reliable sources in Europe: we pack them carefully and are positive that the quality of our bulbs is above reproach. Hundreds of testimonials have been received by us this last spring, and we should like to add yours to the collection. One single trial will accomplish this.

BUREAU OF EMPLOYMENT. Any lady, gentleman or estate requiring the services of a superintendent, head gardener, assistant or coachman would render us a great service by permitting us to recommend them reliable parties who seek positions. We constantly receive applications from reliable, well-experienced men who desire to make a change in their employment.

INFORMATION BUREAU. We cheerfully supply, to the best of our ability, any information desired on the subject of Gardening and Farming, and solicit correspondence. Prompt reply assured. No charge for such service.

Our Cover Illustrations

The subject we present on the front cover is one with which every gardener is acquainted. The wonderful improvement produced in both size, substance and purity of color in "Rawson's Purity Freesia" when compared with the older type, has been superseded with the introduction of entirely new colors (hitherto unknown) and we offer this year for the first time in America these splendid Novelties:

Delivered free to any post office in the United States

For our back cover we reproduced the subject illustrated last year because we believe that "Rawson's Nature Garden Mixture" Narcissi has given universal satisfaction.

This mixture is made up of four distinct sorts blooming at different periods, so that but one kind is in flower at one time, extending the entire period to over six weeks and producing each time a complete harmonious effect. The ideal material for the Wild Garden, old-fashioned borders, woodland and grass plots. In order to popularize this splendid mixture, we offer 100 bulbs, $1; 1,000 bulbs, $7.50; 10,000 bulbs, $50. At these prices we deliver free to any express office in the United States.

Free Delivery

We deliver free of charge, either by express or mail, within a radius of 50 miles from Boston, any order entirely composed of bulbs amounting to $3 or over.

We deliver free of charge, either by express or mail, to any post office or express office in New England and the states of New York and New Jersey, any order entirely composed of bulbs amounting to $10 or over.

We mail free of charge all bulbs listed in this Catalogue at the single or dozen rates, except with a few heavy species specified in this Catalogue, for which postage must be added to the order according to the rate given.

Plants can be sent by express only, as we furnish but a large specimen of any variety. Postal rules confine us to a certain size of package which would compel us to pick plants of inferior quality, which would produce poor results.

No charge for packing, carluge or delivery of goods to any railroad station, steamer or express office in Boston.

Name and address should be carefully written on every order. Special mention should be made if express offices and post offices are located apart, and we should appreciate mention of your preference of transportation.

Please use attached order sheet; extra blanks gladly furnished upon application.

We do not offer premiums, but enclose with every order a liberal collection of bulbs for trial; we then select such varieties as are not duplicated in the order.

PRICES.—We don't pretend our prices to be the cheapest, but we send out every article contained in this list in a reliable quality and as true to name as human possibility can suggest.

W. W. Rawson & Co. give no warranty, either express or implied, as to the growth, kind, description, quality, productiveness or any other matter regarding any seeds they sell; nor will they be in any way responsible for the crop resulting therefrom. If the purchaser does not accept them on these terms, he must return them at once, as they are sold upon these conditions only; where purity or growth are mentioned, they are only for guidance and without guarantee.

Rawson's Mixed Bedding Hyacinths

LARGE UNNAMED HYACINTHS IN SEPARATE COLORS

FOR FORCING AND BEDDING

Our mixed Hyacinths are of the largest size and should not be compared with cheap mixtures offered elsewhere. The variety of colors we offer is so extensive that beautiful effects may be produced with them. Great care has been given to the selection of varieties used for each mixture so as to produce their flowers all at the same time and at the same height.

Rawson's Special Named Bedding Hyacinths

EXTRA LARGE BULBS FOR BEDDING AND FORCING

To produce fine color effects in gardens, parks and estates, it is essential for the flowers to be of distinct and decided shades and exact uniform height, also to flower all at the same time. To meet this want we offer the following splendid sorts. They may also be used for forcing, grouped in bulb pans.

PINK or RED

Sarah Bernhardt. Salmon rose.
Gigantea. Soft pink.
Gertrude. Bright rose.
Rosy Gem. Deep rose.

WHITE

Mr. Plimsoll. Ivory white.
La Grandesse. Pure white.
L'Innocence. Pure white.
Grandeur a Merveille. Waxy white.

VIOLET or PURPLE

La Peyrouse. Porcelain-blue.
Grand Maitre. Violet.
King of the Blues. Deep rich blue.

YELLOW

Doz., 75c.; 100, $1.25; 1,000, $10

We furnish 6 bulbs at the dozen rate; 25 at the 100 rate; 250 at the 1,000 rate.

Rawson's First Prize Exhibition Hyacinths
TWO NEW TULIPS OF WONDERFUL BEAUTY

Tulipa Forsteriana. An early-flowering specie of unusually large dimensions and most brilliant coloring. Flowers, when fully expanded, measure 10 inches across and are of the most brilliant orange-scarlet imaginable. Each petal has a shiny purplish spot on base. Extra-large flowering bulbs, 25 cts. each, $2.50 per doz.

New Darwin Tulip, "Urania." Of 600 varieties of Darwin Tulips which we tried at Marblehead last season this was the most superb. The gigantic flower is oblong in shape, similar to Forsteriana, of a bright orange-scarlet, but a deep golden base; showy to the extreme; on a slender, tall, gracefully waving stem. A novelty of the best acquisition. 25 cts. each, $2.50 per doz.

Rawson’s “First-Prize” Exhibition Hyacinths

COLOSSAL BULBS

These should produce Specimen Flowers. But few of these bulbs are usually collected and therefore the quantity is limited.

SINGLE RED AND PINK SHADES

Fabiola. Pink, distinctly striped crimson.
Gertrude. Handsome rose-pink; excellent flower.

SINGLE LIGHT AND DARK BLUE

Johan. New, Pale gray-blue; large bells, splendid spike.
Grand Lias. Light porcelain-blue.
King of the Blues. Rich dark blue; superb spike, with immense bells.
Queen of the Blues. Beautiful azure-blue; handsome truss.
Prince of Wales. New. Violet-blue, white eye; very striking.
Grand Maitre. Dark porcelain-blue; large truss.
Schotel. Fine porcelain; immense spike.

SINGLE PURE AND BLUSH-WHITE

Baroness van Thyss. Pure white, fine broad truss.
Grandeur a Merveille. Blush white, large spike.
Mme. Vanderhoop. Waxy white, large bells.
La Grandesee. Purest white, splendid bells; grand spike.
L’Innocence. Pure white; extra large truss.
Mr. Plimsoll. Ivory-white, fine bells; showy.
Each, 25 cts.; doz., $2.50; 100, $15

Rawson’s Selected Exhibition Hyacinths

We have carefully weeded out all undesirable varieties, and list below the choicest. Those marked (new) are novelties. Our bulbs are re-selected and the best in the market.

Rawson’s

Early Roman Hyacinths

This beautiful and valuable variety, if planted early in September and gently forced, will bloom in November, or their flowering may be retarded until Christmas by keeping them in a cool place. By successive plantings they may be had in bloom until March. The flowers, which are smaller than the ordinary Hyacinths, are produced in great profusion, each bulb throwing up three or four spikes of delicate scent.

New Rembrandt Tulips

An entirely new class, a break from the finest Darwin's, which originated only a few years ago and is now absolutely fixed. Height, shade and size of blooms is identical with the Darwin, but the colorings are new and distinct. This class is absolutely hardy in New England and should be planted where they can remain permanently.

We are the first to offer these splendid novelties to the American public and have full confidence in their ultimate popularity.

From one hundred varieties we have selected the following as best.

**Aladin.** Light lilac-rose, suffused pink, flaked white and crimson. Each, 15 cts.; doz., $1.50; 100, $10.

**Anne Mary.** Soft lavender, with an occasional splash of purple and white spot at base. Each, 20 cts., doz., $2; 100, $15.

**Butterfly.** Violet-rose, shading to white, feathered, pure white and deep purple; very attractive. Each, 15 cts.; doz., $1.50; 100, $10.

**Caracalla.** Bright scarlet, with markings of pure white; very fine. Each, 15 cts.; doz., $1.50; 100, $10.

SINGLE EARLY TULIPS

For complete cultural directions apply for RAWSON'S BULB GUIDE (mailed free)

No other flower excels the Tulip in beauty of form, brilliancy of color, effective bedding and gorgeous show. They are equally desirable for bedding as well as for pot culture indoors. For outdoor bedding the most brilliant effect can be produced by massing colors which contrast well. Our list of named varieties is the most complete in this country, especial care being taken to offer but the choicest sorts. All our bulbs have been picked and should prove of superior size and quality.

Rawson’s Arlington Prize Mixture

We pride ourselves in offering the choicest mixture of Tulips in this country. Over 250 of the choicest sorts of Tulips are used to produce this blending. We give great study to the selecting of varieties that will flower at the same time and grow of even height, in order to produce the most brilliant mass effect. We use but the largest bulbs for this mixture, which is undoubtedly unsurpassed.

In order to avoid disappointments and to guarantee an equal proportion of colors with every order, no matter how small, we shall blend this mixture at the time of filling the order, and for the order only.

TULIPA TUBERGENIANA

Is one of the finest Tulips yet introduced,—imposing as regards size and color and exquisite in the shape of its immense flowers. Discovered in 1909 by Mr. Van Tubergen in the high mountains of Central Bokhar, it was brought to England and has proven there one of the most hardy species of Tulips. Truly a giant in size of bulb, foliage and flowers. The erect flower-stem is stout, very tall and markedly pubescent. The leaves are of great size and intensely glaucous, while the cofflaw flowers are pyramid-shaped; their color is an intense scarlet with an orange tinge and a bold black blotch in the base. Each, 30 cts.; doz., $3; 100, $20.

NAMED SINGLE EARLY TULIPS

New, Rare and Choice Tulips

The varieties listed below are the cream of recent introductions and are quite an improvement on the Standard varieties either for coloring, size or perfection.

RAWSON'S PINK BEAUTY FREESIA

is a distinct species and has in addition to its valuable quality, namely, charming color, a most satisfactory habit in that the flower stems freely branch, often producing 10 distinct flower spikes, each averaging from 12 to 18 inches in length, so one can cut a veritable bouquet from a single plant. Delicate and pleasing fragrance and will attract every flower lover. Each, 30 cts.; doz., $3; 100, $20.

We furnish 6 bulbs at the dozen rate; 25 at the 100 rate; 250 at the 1,000 rate.
RAWSON'S BULBS FOR FALL 1909

LATE-FLOWERING SINGLE TULIPS

Also Called May-Flowering and Cottage Tulips

Our exhibits of these Tulips shown before the Massachusetts Horticultural Society have been much admired. These lovely late-flowering Tulips are very effective for all kinds of decorative work, and their value as cut flowers cannot be overestimated. They are all perfectly hardy; raised in the most northern parts of Great Britain and Ireland and are eminently fitted for border cultivation for bedding, forcing and every purpose to which the early-flowering Tulip is put. They often grow from 2 to 3 feet high, and flower usually about Memorial Day, lasting fully two weeks in bloom. We have given this group considerable attention in recent years and we can fully recommend the varieties listed below as the best of their kind. Comparison will show that our list is the most comprehensive offered in the United States.

Rawson’s Exquisite Darwin Tulips

This class is without doubt the Queen of Tulips. It comprises a grand selection of the older Broeder Tulips and the coming race for effective garden display. They range from 2 to 3 feet in height and their flowers are massive, weather-resisting and very persistent. They are well adapted for every garden use, particularly for the planting of grass vistas, the approach to woodland and in shrub beds; their constitution is so strong that grasses cannot choke them and they will thrive for several years without further attention. They force readily and we can recommend them for that purpose; indeed, there is no finer group of Tulips for conservatory decoration at their season than these Darwins. They embrace nearly all shades of white, lilac, rose, red and crimson, whilst a few new and very interesting types are colored mauve, heliotrope, maroon and black-purple. Their centers are always clear and well defined, and in many cases a ring of white, gold or blue divides the basal from the petal coloring.

Rawson’s Exquisite Mixture of all Colors
Doz., 40 cts.; 100, $2; 1,000, $15

List of Varieties
Antony Roozen. A beautiful early-flowering variety, colored deep rose shading to a blush margin. Flowers cup-shaped and very effective massed. Each, 10 cts.; doz., $1; 100, $6.

Fall- and Winter-Blooming Crocuses

Are you not astonished to learn that there are hardy Crocuses which will bloom outdoors in the North between November and March with no protection whatever? Most of them are natives of the Holy Land, and all should be planted as early as possible in the autumn. The dates given below are the earliest they have been known to flower, but even if they do not bloom until March they are well worth while, for they will usually be seen in bloom amid the snow, as accompanying illustration will show. The bulbs should be extensively planted and the risk of losing them can be greatly lessened by planting them in the sunniest and most sheltered nooks.

We heartily recommend their use by the thousands on southern estates, especially winter homes in the Carolinas and Georgia, where they will glorify the otherwise barren month of January. We believe also that they will succeed even in Canada, though blooming at the end of winter. The time of bloom depends chiefly upon the openness of the winter. Winter flowers are certainly exciting, because of the uncertainty about the time of blooming, and what can be more interesting than to find flowers outdoors in bloom in your own home grounds right in the middle of winter? Several of these varieties are offered here now for the first time.

Species of Colchicums

**Autumnale major** (commonly called Meadow Saffron). The rosy, lilac blossoms appear from September to November. Doz., $1; 100, $7.50; 1,000, $800.

**Autumnale album.** A white variety of above. Doz., 100, $4; 1,000, $35.

**Autumnale plenum.** Double rose. Doz., 100; $1.

**Autumnale, Mixed.** Doz., 50 cts.; 100, $3; 1,000, $25.

**Agrrippinum.** Large lilac flowers which are checkered with dark purple; attractive. Doz., $1.25; 100, $7.50.

**Decaisnei.** From Egypt; producing in profusion delicate pink flowers during November and December. Doz., $1; 100, $7.50.

**Libanoticum.** Pale rose, shaded white, with golden anthers. December. Doz., 100 cts.; 100, $8.

**Montanum.** Rose to bluish white; 3 inches high; flowers in February. From Turkey. Doz., 40 cts.; 100, $2; 1,000, $15.

**Parkinsoni.** Peculiar checkered markings on violet-purple flowers. Petals reflexed. Flowers in October. Doz., 40 cts.; 100, $2; 1,000, $15.

**Speciosum.** Large rosy purple flowers appear in September. Each, 20 cts.; doz., $2; 100, $15.

Species of Crocus Autumnale

For the winter garden these are invaluable. Robinson says "Crocuses flower at a time when every flower is of value, and we do not doubt that very long species recently introduced will add largely to our means of garden decoration during the dull months."

**Asturicus atropurpureus.** New. Beautiful purple flowers appearing in December. Doz., $1.25; 100, $8.

**Cancellatus.** From Asia Minor. Flowers with white and soft pink nodding petals, anthers yellow. Appears in January. Each, 20 cts.; doz., $2; 1,000, $15.

**Caspian.** Pure white, from the coast of the Caspian Sea; extra-fine variety. Flowers in December. Each, 50 cts.; doz., $5.

**Cilicicus.** Flowers with white base and soft pink petals, inside lilac. Appears from October to December. Doz., 50 cts.; 100, $3.

**Hermeneus.** Very hardy. From top of Mt. Hermon, 9,000 feet above sea level. Most beautiful lilac; extra large, very rare. Each, 50 cts.; doz., $2; 100, $15.

**Hiemalis.** Flowers white, the outer line banded, throat orange-colored. Flowers appearing from December to April. Doz., 30 cts.; 100, $2.

**Imperati.** Often seen in January but will continue up to March. Color lilac, the outer surface of the outer segment is coated with rich buff, suffused with purple feathering. Doz., 50 cts.; 100, $2.75; 1,000, $25.

**Iridiflorus.** The Banat and Transylvania. Bears in September and October bright purple flowers before the leaves. Doz., $1; 100, $7.50; 1,000, $70.

**Medius.** A beautiful purple flower from the Maritime Alps; flowers in October. Stigma bright scarlet and much braunched. Each, 20 cts.; doz., $2; 100, $15.

**Sativus.** Beautiful light blue, long narrow flowers in clusters of three. Flowers in October and November. Doz., 30 cts.; 100, $2; 1,000, $15.

**Speciosus.** Flowering at the end of September and early in October. The peculiar segments are rich bluish purple, suffused with darker purple veins. Doz., 30 cts.; 100, $2; 1,000, $15.

**Speciosus Artichisoni.** Character as above; extra large flowers of bright purple color. New. Doz., 60 cts.; 100, $4; 1,000, $30.

**Zonatus.** From the mountains of Cilicia. Bright vinous lilac flowers, golden at the base, about the middle of September. Doz., 40 cts.; 100, $2.50; 1,000, $20.

**Vitellinus.** Orange-yellow flowers, appearing from December to February. Doz., 60 cts.; 100, $4; 1,000, $30.

SINGLE NARCISSI

Popularly called "Jonquils" or "Daffodils"

The demand for this charming spring flower has been increasing so steadily that the European growers have devoted a greater space to them and they are cultivated so largely now that we are able to offer some of the finest varieties at a very moderate price. Our bulbs are all hand-picked, thus insuring the purchaser of a larger flower.

NARCISSUS POETICUS

Polyanthus Narcissi

The Fragrant Bunch-flowered Narcissus

In our New England climate this class is not hardy and can be used for house culture only. Their easy culture should endear them to every flower lover. In southern states these bulbs are perfectly hardy and we highly recommend them to be planted by the thousands, as they will beautify the gardens in a month; where without them the grounds would be barren.

THE LARGE - FLOWERED PAPER-WHITE NARCISSI. If grown in pots, eight weeks will produce the flowers. We especially recommend to grow this bulb in pebbles and water, after the fashion of Chinese Sacred Lilies, as they are far superior to the latter. Flowers appear in three weeks in greater numbers and more perfected. Failures are not known. Twelve bulbs should be planted in an ordinary sized dish. It is advisable to start the bulbs in a dark place for four to six days. Grow cool and give plenty of water. In order to grow successions of bloom during the entire winter, we have provided to supply these bulbs right up to March 1.

Large bulbs. Doz., 40 cts.; 100, $2; 1,000, $15.
Mammoth bulbs. Doz. 45 cts.; 100, $3; 1,000, $20.
Pebbles for above. Qt., 10 cts.; 4 qts., 35 cts.

Bathurst. A large cluster of deep yellow flowers………………..$6 00 $4 50 $35 00

Bazelman major. White flowers of enormous size, with yellow cup; Fragrant and massive; extra.; Each, 30c., 1 00 6 00 58 00

Double Roman. White, with deep yellow cup; large truss. Excellent for forcing……… 25 1 50 11 00

We furnish 6 bulbs at the dozen rate; 25 at the 100 rate; 250 at the 1,000 rate

### Chinese Sacred Narcissus

(Chinese New Year Lily) Ready in October

They are somewhat similar to the Polyanthus Narcissus and are usually grown in bowls partially filled with pebbles and water. We offer the Mammoth Bulbs, each, 10 cts.; doz., $1; 100, $6.

We have been fortunate in securing some Jumbo Bulbs of the Chinese Lilies, which we offer at: Each, 15 cts.; doz., $1.50; 100, $12.

### French-Grown Trumpet Major Narcissus

The ideal Jonquil for forcing, it will come into bloom fully two to three weeks ahead of the Dutch-grown and is free in blooming. Doz., 40 cts.; $2; 100, $15.

### New Irish Narcissi

AJAX AND TRUMPET NARCISSI

**Lady Beatrice Pole Carew** (White Ajax). The purest white trumpet existing, and especially named by desire. The flowers first appear as if sulphur, but after two or three days nothing equals it for whiteness, remarkably so under glass; foliage of metallic green hue, the plant very healthy and of rapid increase. Each, 50 cts.
New Irish Narcissi, continued

HELEN FALCONER (White Ajax). Perianth Each long, deep sulphur and pendulous, toning off silvery white. Distinct and fine ....... doz., $2.50. 50 25

IVANHOE. A concordor bloom of rich lemon-yellow, not unlike John Nelson, but better and more lasting; strong grower....................... 75

Lorna Doone. Here we have the most distinct yellow Ajax in commerce. Segments and trumpets rich canary-yellow, fluted or cylindrical, stiff, bold erect habit and most lasting. It is distinct and lovely .................. 1 00

Milkmaid. Small white Ajax. A seedling of Colleen Bawn and Moschatus. A great beauty, partaking of the formation of the Colleen, and very hardy............................ 1 00

Polly Eccles (Bicolor). Segments pale primrose, trumpets a richer tone; beautifully serrated and folded back; small, but one of the most perfect blooms .................................. 1 00

Spread Eagle. Rich, uniform glistening yellow, after the form of Iris princeps, with its twisted segments; deep green, very strong foliage. This is a strong yellow Ajax Daffodil....... doz., $1. 10

New Tall Giant Leedsi Seedlings Narcissi

Very fine introductions; vigorous giant growers and producing a lasting display, and so very early. We recommend these highly.

Constance Pierpoint. 22 inches. Pure Each Doz. white, star-shaped segments, rich yellow cup, well expanded; very early and of rapid increase .................. $ 20 $ 2 00

Lady McAlmont. 26 inches. Perianth large, pure white, over 4 inches across, beautifully twisted and grooved; broad white crimped cup, edged with citron; very vigorous, most lasting; increases rapidly and forms huge bulbs. Rare ....... 1 25

Leander. 18 inches. Perianth pure white, reflexed and grooved, cup pale citron, toning off white; stiff erect habit; very distinct. Rare .................. 50 5 00

Robe. 20 inches. Pale yellow, dying off white. The segments overlap like Bicolor Grandee. Cup rich yellow; broad and fluted massive foliage; rich perfume. 20 2 00

Leedsi Seedlings with Orange Cup

To produce these orange colored Leedsi the European hybridizers have been working for a century, and at last their efforts seemed to be crowned with success. We are glad that we are first to offer these novelties to the American public.

Loadstone. Segments pure white, overlapping Each with a deep red and most brilliant cup from the base; exquisite .................. $2 50

Nectarine. Flowers 3½ inches across, ivory-white; the cup ¾ in. in depth and of the color of a tangerine orange; the reddish color is derived from a cross with Poclamen. This was the first Leedsi with orange cup .................. 1 25

RAWSON'S NARCISSUS BERNEICE
New Red Cupped Seedling Narcissi

The following are absolutely original and mark the approach of an entirely new class of Daffodils, the name of which had not been decided upon at the time this catalogue was issued.

**Bernice.** Segments creamy white and pointed; cup funnel-shaped and deep blood-red to the base; narrow grassy foliage. Very early and for each looks on rockwork or for pots delightful. Height 6 in. .................. $0.50

**Orestis.** New erect, cupped petals, creamy yellow, cup deep orange-scarlet; dwarf, and most excellent for pots or rockwork; perfection. Height 9 in. .................. 75

**DOUBLE NARCISSI**

**NEW GIANT DARWIN TULIPS**

Visitors from far and near voted our Darwin Tulip display at Marblehead last season the grandest ever seen in America, and from the many hundred novelties tried out we were greatly impressed with the enormous improvement made during recent years, particularly in color and size. Many of the plants were from 40 to 45 inches high and had flowers of gigantic dimensions. The ones we selected to offer below were the cream of the newer creations, and will surprise every connoisseur of Tulips. Darwin Tulips to be planted properly should go in shabby or perennial borders, massed in clumps from twelve to twenty-five in each of one solid color, and they will not only remain there permanently but will steadily increase.

THE HARDY GLADIOLUS FOR THE GARDEN. PLANTED OUT IN FALL WILL FLOWER THE FOLLOWING JULY

A specialty of exceptional value both for forcing and outdoor culture. Extremely early-flowering flowers outdoors in June and July

These beautiful early-flowering varieties are invaluable for pot culture and for border planting. They force readily, and they may be had in flower from the end of April till the end of July. They may be forced like ixias, but they require more pot room, and they are invaluable for their yield of cut-flowers from the open in June and July. They last long in water, and every flower opens to the extremity of the spike. Their rich colors and vivid markings on the lip petals rival those of orchids, and we recommend this group not only for their beauty, but because they are very easy to grow. A light soil and a slight protection with litter during very sharp frost will prove all they require, and the spikes will be longer and the flowers larger if the plants are mulched in dry weather.

**Ackermannii.** Salmon-orange, with white blotches edged scarlet. Doz., 30 cts.; 100, $1.50; 1,000, $12.

**Ardens** (Fire King). Fiery scarlet, pink flake. Doz., $2.50; 100, $18.

**Blushing Bride.** Pure white, with deep crimson flakes; most effective. Doz., 30 cts.; 100, $1.50; 1,000, $12.

**General Scott.** Delicate rose, red blotches. Considered one of the best pink varieties. Doz., 75 cts.; 100, $5.

**Lucilia.** Large white, flushed rosy flesh, yellow blotch, edged red. Doz., 50 cts.; 100, $3.50; 1,000, $50.

**L’Unique.** Rich coral-red, with carmine tips, flaked white and edged crimson; a very rich form. Doz., 75 cts.; 100, $4.

**Modesty.** Very light violet, blotched rose. Doz., 40 cts.; 100, $2; 1,000, $15.

**Ne Pius Ultra.** This Gladiolus received an "Award of Merit" from the Royal Horticultural Society, London, England. Grows 3 feet high and has magnificent spikes of reddish salmon flowers, with white tongue-shaped blotches on the lip petals. Forces splendidly, and likely to prove the standard Gladiolus for this purpose. Every bud opens in water. Doz., 60 cts.; 100, $4.

**Orange Queen.** Clear orange-scarlet, blotched white. Doz., 40 cts.; 100, $2; 1,000, $15.

**Peach Blossom.** Rosy blush; extra. The most delicate-colored Gladiolus. Doz., 50 cts.; 100, $2.50; 1,000, $22.

**Pink Perfection.** Deep rose. Doz., 25 cts.; 100, $1.50; 1,000, $10.

**Prince of Orange.** Dark orange-pink, flaked white and margined carmine. A grand Gladiolus. Doz., 90 cts.; 100, $6; 1,000, $50.

**Queen of Holland.** Pure white, flaked light sulphur, bordered red. Doz., 50 cts.; 100, $3; 1,000, $25.

**Queen Wilhelmina.** Blush-white, with conspicuous blotches of cream, with scarlet margins. Doz., 75 cts.; 100, $5; 1,000, $10.

**Rosy Gem.** Rosy pink. Doz., 40 cts.; 100, $2; 1,000, $18.

**Salmon Queen.** Beautiful salmon-pink. Doz., 50 cts.; 100, $3; 1,000, $25.

**Sappho.** Delicate lavender, with faint creamy blotches edged violet. Doz., 30 cts.; 100, $1.50; 1,000, $15.

**Sans Pareille.** Light lilac, small blotch on lower petal. Doz., 40 cts.; 100, $2; 1,000, $15.

**Tristis.** A slender-growing grassy species 2 to 3 feet high, producing lovely sweet-scented yellow flowers, the petals of which do not reflex so fully as most others. Quite pretty and novel. Doz., 75 cts.; 100, $5; 1,000, $45.

---

**GLADIOLUS COLVILLI**

**Alba.** A small-flowered type used for forcing in greenhouses, producing compact spikes of pure white flowers. Doz., 25 cts.; 100, $1.50; 1,000, $11.

**Rosea.** Delicate pink. Doz., 25 cts.; 100, $1.50; 1,000, $11.

We furnish 6 bulbs at the dozen rate; 25 at the 100 rate; 250 at the 1,000 rate.

HELLEBORUS NIGER
(Christmas Rose)
NEW ENGLAND-CROWN STOCK
We offer herewith New England-grown roots of this valuable plant, which we are certain will stand the severe winters and flower from December till March, often right in the snow, as the accompanying illustration shows. Foliage remains waxy green all winter and the white and often blush-pink flowers will last for weeks after being cut. The ideal plant for the winter-garden. Divided roots (ready to flower, winter 1909-1910). Each, $1; doz., $10.

HEPATICA
(Anemone Hepatica)
A beautiful early hardy flower. In sheltered spots on porous soil the foliage will remain through the winter. The Hepatica is a deep rooter, hence it thrives so well upon made banks. Where let alone and not often pulled to pieces, it makes strong tufts. Clumps of the rich colored reds, whites and blues, when a mass of bloom in March, are very beautiful.

Alba. Pure white..............$1.50 $10.00
Coerulea. Rich blue............. 75 5.00
Rubra. Brilliant deep red ...... 1.25 8.00

We furnish 6 bulbs at the dozen rate; 25 at the 100 rate; 250 at the 1,000 rate.
IRIS GERMANICA
(German Iris)

The best season for planting this Iris is during September and October. All the varieties we offer below are grown on our own grounds and can be shipped immediately. One of the best known hardy plants; flower in spring and do best on good well-drained soil. Colors are of the greatest range of color in blue, white, yellow and brown. The following varieties are among the best in cultivation.

**Price of each variety, each, 15 cts.; doz., $1.50; 100, $10. Complete set of 15 varieties, $2. By express only**

- **Agnes.** A very handsome variety, being white frilled and shaded lilac.
- **Asiatica.** Rich blue standards and violet-purple falls.
- **Bergiana.** Large yellow standards with deep blue falls.
- **Bouquet Royal.** A very beautiful sort of a delicate creamy white.
- **Canary Bird.** Yellow standards with bronze falls, striped white.
- **Darius.** Handsome lilac falls striped white and orange standard.
- **Gloire de Hillelgon.** A beautiful porcelain-blue and the best of its color.
- **Gracchus.** A very fine crimson reticulated white. A distinct variety.
- **Honorable.** One of the most popular varieties, being a bright yellow, veined maroon.
- **Innocenza.** The finest pure white German Iris. Flowers very large and of fine texture.
- **Lord Melville.** Standards pale violet and deep bluish violet falls. A most striking variety.
- **Macrantha.** One of the largest blue varieties. Blue and violet standards and falls.
- **Madame Chereau.** Standards white with sky-blue feathered edges.
- **Maori King.** Rich golden yellow standards. Falls velvety crimson margined with gold. A beautiful sort.

**Mrs. Horace Darwin.** A beautiful white, slightly reticulated violet at base.

**Penelope.** Handsome white, with reddish violet falls.

**Queen of May.** A distinct shade of rosy blue. Very handsome.

**Sootabils.** A rich, deep velvety blue.

*For large estates or parks we make a special offer of $50 per 1,000, either in assortment or separate colors. Not less than 1,000 furnished at the above price.*

IRIS KAEMPFERI
(Japan Iris)

The flowers are enormous in size, measuring from 10 to 12 inches in diameter and are of the finest texture. To produce the best results these should be planted in moist, rich situations. They come into flower about the middle of June and last four or five weeks.

We have an immense stock of field-grown clumps grown in our own nursery and offer same in assortment of colors, gathered from a collection of 50 varieties, at 15c. each, $1.50 per doz., $10 per 100.

IRIS SIBIRICA
(Siberian Iris)

The most delicate and elegant of all the small-flowered Iris; grassy foliage with tall stems; highly floriferous; one of the best for cutting. Flowers various shades of blue, white markings. Succeeds well in moist situations.

- **Alba.** The white form, veined purple and brown. Doz., 75 cts.; 100, $4.50; 1,000, $40.
- **Coerulea.** Light blue and white; tall, showy plant. Doz., 50 cts.; 100, $5; 1,000, $27.
- **Atropurpurea.** Very large; velvety purple. Doz., 50c.; 100, $3; 1,000, $27.

We furnish 6 bulbs at the dozen rate; 25 at the 100 rate; 250 at the 1,000 rate.
ENGLISH IRIS (Iris Anglica)

This is a beautiful flower, and the many garden varieties are among the finest things we have in early summer. The English Iris got its popular name in a rather curious way, being sent from its Pyrenean home, where its distribution is limited, to Bristol traders, thence to Holland. The Dutch, supposing it to be a native of English shores, called it the English Iris. The flowers are quite distinct in aspect from those of the Spanish Iris and appear a fortnight or so later. They are broad and display a delightful diversity of color from deepest purple to pure white. They are easily cultivated and well worthy of a place in every garden. Iris gardens are coming into vogue, and with the above variety a flowering season is filled which otherwise would be bare. Our collection comprises:

SPANISH IRIS (Iris Hispanica)

A very beautiful flower, and an old inhabitant of English gardens. This Iris is absolutely hardy in this severe New England climate and does particularly well in light friable soil between shrubs and perennials. The flowers are produced in early June, and the display of the bright colors makes a most gorgeous effect. The proper thing to do is to mass about fifty bulbs of a single variety in a clump and allow it to remain in the ground undisturbed until the grassy stalks show the impoverished soil and degenerated roots. We have carefully selected the varieties offered herein and know they will give perfect satisfaction.

IRIS PALLIDA DALMATICA

A giant German Iris of vigorous growth, producing flower stems 3 to 4 and often 5 feet high which are lined with five to ten enormous fleur-de-lis of a most attractive delicate sky-blue shade. It is a rare variety and excellent for naturalizing. The splendid effect of massing them in large clumps or long rows in the natural garden can be admired to perfection in the interesting estate of Mr. Chas. W. Parker, of Marblehead, Mass. Each, 25c.; doz., $2.50; 100, $20.

IRIS PUMILA (Dwarf Iris)

Excellent plants for rockeries, edges of Iris beds or the hardy border, forming pretty tufts of dwarf flowers. For bordering, plant in a double row 4 inches apart; they soon make a dwarf and very effective edging. All flower in early spring.

Hardy Lilies

OUR SPECIALTY

According to Dr. Wallace, the greatest authority on hardy Lilies, the best and most result-producing time for planting or transplanting Lilies is immediately after the time of blooming. To give our customers the benefit of this experience we have gone to great expense by establishing a large Lily field at Rawson’s Dahlias Farm, Marblehead, Mass., where we are growing the undermentioned varieties in ideal locations. We are thus prepared to deliver any and all of the varieties offered just at the proper time. A great opportunity for those who live at distant summer resorts to plant while they are there. Most of the Lilies can be lifted before September 15 and some even as early as July 15.

Lilium Candidum should and must be planted in September if success is desired.

To plant Lilies properly please consult Rawson’s Bulb Guide.

Rawson’s Lilium Candidum

THE BEST HARDY WHITE GARDEN LILY

No one can fully appreciate the beauty and purity of this splendid Lily, unless the flowers shown are raised from “Rawson’s Bulbs,” for we offer a strain which has no equal anywhere in America. The bulbs, like the flowers, are superb and are grown by a private grower in France, whose entire output is at our disposal. These Lilies are free from disease and with age increase in size and number. When they are used as a combination with Delphiniums the effect is superb. Each, 15 cts.; doz., $1.50; 100, $10.

Auratum (Golden-banded Lily of Japan). This variety grows on a strong stem, 4 to 5 feet high, from six to twelve immense blooms which measure nearly a foot when expanded. The flowers are white, with a broad yellow stripe through the center of each petal and freely spotted crimson. Their fragrance is delicious.

MONSTROUS BULBS OF
Japanese Lilies

Our growers in Japan were astonished last season to find among their bulbs a number of specimens measuring from 15 to 20 inches in circumference, bulbs which should produce wonderful specimens of plants bearing an unlimited number of blooms. We were fortunate to secure these bulbs and can furnish the same in the following varieties:

Lilium auratum, speciosum album, speciosum roseum, speciosum rubrum, speciosum Melpomene. $1 each, 10 per doz.

The World’s Collection of
SUPERB RARE
AND NEW PEONIES
are offered by us now for the first time

For several years we have collected and grown the choicest introductions of America and the Continent; we have continuously discarded duplicates and undesirable varieties, and possess today a collection par excellence which can be equaled nowhere in the world. Our list contains not less than 400 varieties, most of them so limited as yet in quantity that they cannot be obtained in the open market, except from us direct. Every variety we offer bears the distinction of having received at least one certificate of merit from the following Horticultural Societies: Massachusetts Horticultural Society, Boston, Mass.; Royal Horticultural Society, London, England; Société d’Horticulture Nationale, Paris, France. Among others will be found almost the complete list of the renowned “Richardson’s Seedlings,” some varieties of which have never before been offered to the public.

Above all we wish to make the statement that every variety furnished in this list is absolutely true to name and strong of size, so results may be had the first season. A special Catalogue describing fully every one of these new varieties is now ready and may be had free upon application. To lovers of Peonies this is a great opportunity to complete their collections.

New and Rare Peonies

Under this heading we list twenty-four of the choicest of the newer and rarer sorts of Peony Sinensis, embracing some of the most beautiful shades of this lovely flower.

Set of 24 varieties for $12

Agnes Mary Kelway. A most delicate sort, with rosy pink outer petals and yellowish center. One of the earliest to flower. Each, 50 cts.; doz., $5.

Couronne d’Or. Large imbricated bloom, white reflexed yellow, center petals bordered carmine. A distinct and striking variety. Each, 60 cts.; doz., $6.

Festiva maxima. One of the grandest varieties in existence. A beautiful pure white, sometimes tipped carmine. Flower enormous in size, very full and double. Each, 75 cts.; doz., $7.50.

Mad. de Verneville. A very chaste, creamy white variety. The finest of its shade. Each, 75 cts.; doz., $8.50.

We furnish 6 bulbs at the dozen rate; 25 at the 100 rate; 250 at the 1,000 rate.
NEW AND RARE PEONIES, continued

Reine des Francais. Flesh-pink, with white center shaded yellow. One of the finest-flowering of this collection. Each, 50 cts.; doz., $5.

Zoe Calot. Considered by many to be the finest rose-colored Peony in existence. Flowers perfect in form, size and coloring, which is of a most pleasing shade of rose. Each, $1; doz., $10.

Twelve Standard Peonia Sinensis

The following named varieties are all standard and well-tried sorts that have proved to be very satisfactory for the amateur gardener.

Price of any of the following: Each, 35 cts.; doz., $3.50. Set of 15 varieties, $4.50

Duchess d’Orleans. Pale rosy lake, with distinct salmon center. A very beautiful sort.

Edulis superba. An extra-fine bright rose variety. One of the best and very sweet-scented.

Festiva alba. Very fine pure white.

Louis Van Houtte. A deep, dark red, one of the choicest of its color. Large and finely formed.

Magnifica. A beautiful white slightly tinted flesh-color.

Princess Mathilde. A fresh rosy-colored self. Excellent formed flower: one of the most attractive of this collection.

Prolifera tricolor. Hand some soft flesh-colored flower.

Pulcherrima. A very delicate shade of soft, rosy white, with tinge of salmon in center.

Rosea elegans. A beautiful combination of soft rose and salmon yellow.

Victoria. A rosy white, with yellowish center. Quite free-flowering.

Peonies in Colors

PUSHKINNIA LIBANOTICA

An ideal plant for naturalizing in the border, woodland, grass or flower beds. It is a lovely plant, but far more showy on account of the multitude of blossoms on a single spike. The color is a heavenly blue and exceedingly attractive; flowers remain in good condition for two weeks. Doz., 25c.; 100, $1; 1,000, $8.

SAUROMATUM GUTTATUM

(“Monarch of the East”)

Produced out of the dry bulb, without water or soil, a beautiful colored flower-spathe, 16 inches long. The only treatment required is to simply place the large, round bulb on a shelf or in a warm room or greenhouse. The flowers, which are spotted red on yellow, purple or blue, are entirely different from any other as to coloring and shape. Very large bulbs, each, 25 cts.; doz., $2.50. If wanted by mail, add 5 cts. postage for each bulb.

Delivery after November 15.

SCILLA

A very popular spring flower commonly called “squills.” Appears in pink, white and blue, the latter color being more generally cultivated.

Doz. 100 1,000

Sibirica. The old-fashioned blue squill. Usually grown with crocuses and snowdrops, bearing beautiful bright blue flowers 5 in. high. 20 $1 25 $10 00

SNOWDROPS GROWING IN THE GRASS

We furnish 6 bulbs at the dozen rate; 25 at the 100 rate; 250 at the 1,000 rate.
The Best Bulbs for Wild Gardening

The prettiest, cheapest and most permanent way of growing flowers in great quantities is to naturalize them in the grass. Many daffodils, once planted in orchard or meadow, require no further care, and the bay crop can be harvested without injuring the bulbs. In favorable circumstances they will multiply so rapidly that you can dig them every four or five years and use the increase for new plantings, so that you may have flowersliterally by myriads at less expense than in any other style of gardening. Every lawn in city, suburbs or country should contain thousands of crocuses, snowdrops and other flowers that bloom in March or before the last snows. In the spring of 1907 these blossoms were caught by the continental snowstorm of April 10, and were, in some cases, covered 10 inches, but they emerged smiling and unharmed. Even if the bulbs last only two or three years, the effect is so charming and the bulbs so cheap that it has become the custom to buy fresh lots every year. Estate owners can quickly redeem and glorify uninteresting woodlots of second-growth timber by planting with a free hand, trilliums, adder’s tongues, bloodroot and the hardiest wild flowers of other countries. Wild gardening is the most important development in floriculture of recent years, and we are in hearty sympathy with it. We shall be glad to make personal visits after June 1, anywhere in New England where our advice may be desired in connection with wild-garden problems. As the most refined taste does not permit double flowers or flowers greatly modified by man in this style of gardening, we do not recommend garden tulips, Von Sion daffodils, etc., for this purpose.

Started Bulbs in Pans and Pots

To accommodate our numerous friends, who requested us in former years to start bulbs for them, and encouraged by the increasing demand for these, we have made special arrangements to have the following list of bulbs potted properly and stored in coldframes until wanted by our customers. When we ship these bulbs they will show but the least sign of growth, and all that is required afterwards is to water them regularly and place in a sunny window. Failure is impossible. Nothing is more interesting than to watch the development of a plant from its first beginning.

At Rawson’s Dahlia Farm, Marblehead, Mass.

we will show in the spring of 1910 a stupendous display of bulbous flowers for the enlightenment of the flower-loving public. Every variety will be plainly marked so that every visitor can make notes and retain them for another year.

**RAWSON’S DAHLIA FARM**

is intended to be the outdoor display and salesroom of an up-to-date seed firm. Visitors are always welcome, Sundays included. Come and see the latest introductions of the Old and New World.

**SUTTON’S SEEDS.** We take pleasure in announcing that we have made arrangements with Messrs. SUTTON AND SONS, READING, ENGLAND, to distribute their WORLD-RENOVED seeds to their American friends who so desire.

**SUTTON’S CATALOGUE** will be loaned upon application. All orders for spring, 1910, delivery, should be in our possession by February 1, 1910, to insure early delivery. We shall be glad to give further information upon this subject.
Rawson's Select Hardy Perennials

For Fall Planting

No class of plants enjoys greater popularity at the present time than the Hardy Perennials. They have made rapid strides into public favor the past few years, until now they may be considered to have a prominent and a permanent place in our American gardens. They have for many years been greatly in demand in European countries and everywhere have given the best satisfaction. According to the modern ideal of landscape gardening, the ideal garden is not one whose beds are laid out on geometric lines, but rather one where there is a closer resemblance to nature; and this can best be effected by the use of perennials giving a great range of color, and at the same time a continuity of bloom throughout the season.

Most of the plants listed below can be shipped in September, with the exception of late-flowering varieties, such as hardy asters, Japanese anemones, hardy chrysanthemums, etc., which are not ready until October. We can ship these, however, before that time, if so desired. In such cases we shall have to cut the growth back before shipping. A great many varieties of bulbs are suitable for the perennial border or garden, and it may require a shifting of the plants on hand to make room for the newer ones. For such instances, we wish to volunteer the information that it is perfectly proper to transplant perennials at any time of the year, provided it is a rainy or cloudy day.

All perennials on following pages to be sent by express only, purchaser paying transit. Positively no plants or roots sent by mail.

We will guarantee all plants or roots sent by express to arrive safely and in good condition, and, if not notified within 10 days from receipt of goods, we shall consider them as received in satisfactory condition and our responsibility ceases.

On account of the severity of the past few winters, we positively refuse to replace plants in the spring which were purchased this fall and failed to winter over.

POT-GROWN SEEDLINGS OF PERENNIALS AND BIENNIALS

The following plants are from seed sown in June, and established in small pots ready for setting out this fall. They will make strong, flowering plants for next season's blooming, and if started early and if protected properly will succeed in withstanding the winter oftentimes as well as the field-grown plants. Delivery in September.

They have made rapid strides into public favor the past few years, until now they may be considered to have a prominent and a permanent place in our American gardens. They have for many years been greatly in demand in European countries and everywhere have given the best of satisfaction. According to the modern idea of landscape gardening, the ideal garden is not one whose beds are laid out on geometric lines, but rather one where there is a closer resemblance to nature, and this can best be effected by the use of perennials giving a great range of color and at the same time a continuity of bloom throughout the season.

**NOVELTIES AND SPECIALTIES**

**Arabis alpina fl. pl.** A very handsome double white perennial unsurpassed for border work. Flowers early in spring. Grows to a height of 6 inches. 25 cts. each. $1.50 per doz.

**New Hardy Aster, Beauty of Colwall.** The first and only double Michaelmas Daisy in cultivation; remarkable for its distinctness and beauty. This variety grows 3 to 4 feet high, very erect and branches freely. The flowers are quite double and of a clear lavender-blue. $2 each.

**Campanula Humosa.** Semi-double, enormous clear-blue flowers in form identical with Moerheimi but twice as large; height 3 feet, continuous bloomer. 80 cts. each. $10 per doz.

**Campanula persicifolia, "Die Fee."** Among thousands of plants of Campanula persicifolia this variety was early discovered to be entirely different from the regular type. The plants grow 4 feet high and bear stalks which are covered for fully 3 feet with enormous flowers of a most delicate azure-blue. 35 cts. each. $5.50 per doz.

**Campanula glomerata acaulis.** A new dwarf-growing Campanula, with handsome clusters of dark blue flowers. Of great value for rockwork and borders. 30 cts. each. $3 per doz.

**Campanula glomerata Dahurica.** A superb variety of Campanula, valued for the rich, deep purple-blue flowers. Grows to a height of about 2 feet and is in flower from June to September. Promises to become one of the most popular of the Campanulas. 30 cts. each. $3 per doz.

**Gypsophila paniculata fl. pl.** Undoubtedly this is a grand novelty. In growth it is quite similar to the single variety, but in flower it can not be compared. The small white flowers, being perfectly double, give the plant a different aspect and make it more valuable for cutting or as a show plant than the single variety. 75 cts. each. $1.50 per doz.

**Incarvillea Delavayi grandiflora.** A greatly improved form of Delavayi with larger flowers. One of the showiest of recent introductions of perennials. Perfectly hardy. 50 cts. ea. $5 per doz.

**Iris pallida Dalmatica.** A new species of German Iris, growing larger and producing enormous flowers of a delicate blue shade on robust stalks. It is a very rare variety and unsurpassed for naturalizing. Mr. C. A. Parker, who has a large row of them on his beautiful estate at Marblehead, Mass., considers them the handsomest Iris grown. 25 cts. each. $2.50 per doz. Mailed free at single price.

**Three New German Iris**

25 cts. each, $2.50 per doz.

**Jeanne d'Arc.** Immense flower with superbly divided petals. Standards clear delicate light blue, falls pure white bordered lilac.

**Monsignor.** Giant blooms of distinct violet-blue standards, with white tongue on a clear blue fall and a purple stripe. Most attractive in coloring.

**Prosper Longhair.** A grand flower of an old-rose shade. Falls are extra-large and of a velvety purple.

**Lilium Alexandrae.** New. A new hardy white Lily, resembling in shape the Easter Lily; grows 3 feet high and blooms in July. The flower petals have a slight tinge of green, which makes them more attractive. 80 cts. each. $10 per doz.

**Lilium Henryi.** New. Flowers dark reddish yellow, marbled with a few irregular brown spots; very hardy; often 6 feet. 1 doz. $10 per doz.

**Lupinus Moerheimi.** The pink perennial Lupin. A grand novelty. Perennial Lupins are indeed valuable for the border as they are one of the few which succeed well in very shady situations. A splendid addition on account of its pleasing color, a soft delicate pink. 1 doz. $10 per doz.

**GLADOLI ARE OUR SPECIALTY**

Campanula persicifolia, "Die Fee"
Rawson’s Collection of Twelve Select Perennials

The twelve hardy perennials following are those we have selected as being the most satisfactory for the amateur gardener. PAPAVER (Hardy Poppy)

NUDICAULE (Iceland Poppy)

A beautiful race and among the most desirable of our herbaceous plants. The plant forms tufts of fern-like foliage, from among which the slender flower-stalks rise to about a foot in height and bear fragrant, cup-shaped flowers. The profusion of blooms is astonishing, often a hundred flower-stems appearing on a single plant, and they are produced from the beginning of June till October. They will thrive on any good garden soil, doing especially well in a sunny location. We offer them in the following colors: Scarlet, White, Yellow. 15 cts. each, $1.50 per doz., $10 per 100.

Oriental. The common variety of Oriental Poppy. The flowers are a bright scarlet with a black blotch at the base of each petal, and when in bloom in the spring they make a very brilliant display. 15 cts. each, $1.50 per doz.

Rawson's Superb Dahlias are now in full bloom at Rawson's Dahlia Farm, Marblehead, Mass.

HARDY PHLOX

This magnificent family of Hardy Perennials may be well termed the most widely known and deservedly popular of all the various plants we have in our gardens. There is no perennial more worthy of culture, more satisfactory in every situation, or more suited for individual planting or grouping for mass effect. They are at their best in the late fall, producing grand heads of flowers of the most varied and brilliant colors. We offer 18 of the finest varieties as follows:

TWELVE NEW PHLOXES

The following twelve varieties are the cream of the latest introductions. They are all large-flowering sorts and embrace nearly all the colors that Phlox can claim.

SHASTA DAISIES

THREE NEW GIANT VARIETIES

Extra-strong field-grown plants, 35 cts. each, $3.50 per doz.
Set of 3 varieties complete, for $1, postpaid

Alaska. The whole plant, roots, stems, leaves, blossoms and flowers are gigantic, but compact and graceful in every respect. The marvelous combination of size, grace, glistening whiteness, abundance and general effectiveness of the flowers which are borne on long, clean, strong stems, will place it at once far ahead of all others of its class.

Under the ordinary field cultivation given Chrysanthemums, the flowers average 4½ to 5 inches across on stems 2 to 3 feet long, with 3 to 5 wide petals, and a very small disk, and with proper disbudding are produced perpetually, though more abundantly at the usual blooming season.

California. Another giant in growth and in most respects similar to Alaska, but the buds and half-opened flowers are of a most pleasing clear, pale lemon-yellow, with two rows of petals. When a day or two old these gradually change to pure white. The combination is exceedingly pleasing. The flowers average 4 to 5 inches across, and with ordinary care and culture are produced perpetually. The common varieties of Chrysanthemum maximum are as weeds when compared with these.

Westralia. This is distinguished by its branching habit, which is a strong character in one of the parents of the whole Shasta Daisy family—the Japanese Field Daisy. Well-grown plants are 3 to 4 feet high and nearly as much through; buds and newly opened flowers are of a pleasing cream-color, semi-double, 3 to 4 inches across and are produced on fairly long stems in bewildering profusion.

General List of Selected Perennials

Hardy Climbing Vines

Below we list a number of the most desirable climbers which are hardy in this climate. They include the choicest of the flowering varieties and the best of the foliage vines. The roots are ready for delivery in early spring, as soon as frost is out of the ground, say April 15, or in late fall, at the prices set after each variety. All those varieties marked with an asterisk (*) we can furnish in pots during June and July, and charge an advance on the price of 25 cents each.

CLEMATIS

We include under this head only the showiest of the varieties of Clematis. They are all rapid-growing, very hardy and among the most satisfactory climbing vines for ornamental purposes.

NOVELTY 1909

Clematis Ina. This Clematis was awarded a first-class certificate of merit by unanimous vote of the Massachusetts Horticultural Society. It originated in the nursery of E. F. Dwyer & Sons, Lynn, Mass. The flowers are 2 inches in diameter, nicely poised on long stiff branching stems and having from 25 to 50 sweet-scented beautiful flowers on each stem. Two stems are produced at each joint and the joints are from 4 to 6 inches apart. The blossoms are white, shaded to a delicate lavender-blue on the edges and on the tips of the petals and are produced in marvelous profusion. In its season of bloom from the first to the last of August, it is the glory of the garden, there being no other plant of any description that can rival its dainty beauty. Extra-strong plants $1 each.
Clematis, continued

*Paniculata.* Best of all the late summer or fall-blooming varieties. Very desirable for covering walls or fences. A profusion of delicate white flowers, with the delicate hycanth fragrance, make it particularly adapted for planting near a veranda. Small plants, 25 cts. each, $2.50 per doz.; large plants, 50 cts. each, $5 per doz.; extra size, $1 each.

M. Koster. A superb Clematis of recent introduction, one of the most profuse-blooming vines we have. When at its best in September the enormous quantity of bright rosy carmine flowers produce the most brilliant effect imaginable, completely hiding the foliage. It is one of the strongest growers and first-class in every respect. Strong 2-year-old plants, 75 cts. each, $7.50 per doz.

Jackmani. Generally considered the best Clematis of its color. Flowers are very large and borne in large numbers. Color a deep violet-purple of velvet softness, distinctly veined white, contrasting superbly when grown with the C. paniculata. Strong 2-year-old plants, 75 cts. each, $7.50 per doz.

Jackmani alba. The largest flowering white variety, similar in form to the preceding variety. Very fine. Strong 2-year-old plants, 75 cts. each, $7.50 per doz.

Amelopsis Veitchii

The well-known Boston Ivy, noted for its excellence for covering walls and buildings. Foliage in autumn of various brilliant colors. Leaves a bright green and very thickly borne. 35 cts. each, $3.50 per doz.

Honeysuckles

A very popular old-fashioned climbing vine, with a profusion of very sweetly scented flowers of red, white and yellow. A very hardy vine and one of the most popular for a porch or piazza.

Belgian (the Dutch Monthly Honeysuckle). In bloom all summer. Flowers are borne in large clusters and are red and yellow. Very fragrant. 35 cts. each.

Halliana (Hall’s Evergreen). Probably more generally grown than any other variety. Foliage is a deep green and almost evergreen through the winter. Flowers are very fragrant, yellow and white, and bloom profusely throughout the summer. 35 cts. each, $1.50 per doz.

Golden Variegated. Leaves beautifully variegated green and gold. Blooms through June and July. Flowers quite fragrant. One of the most satisfactory variegated-leaved vines. 35 cts. each, $1.50 per doz.

Sempervirens (Scarlet Trumpet Honeysuckle). One of the finest flowering varieties, bearing throughout the summer clusters of scarlet tubular flowers. An exceedingly effective vine for a piazza. 35 cts. each, $3.50 per doz.

Wistarias

A handsome group of flowering vines having the flowers borne in pendulous grape-like clusters in either blue or white. Vine is quite hardy and quite a rapid grower.

Chinese Blue. The most popular Wistaria. Flowers in May and August. Pale blue in color and very showy. 35 cts. each, $10 per doz.

Chinese White. Similar to above form, excepting color of flowers, which are pure white. 35 cts. each, $10 per doz.

Multiflora. A Japanese variety with dark purple racemes, which attain a length of from 2 to 3 feet. A fine grower and very hardy. 35 cts. each, $10 per doz.

Hardy Ornamental Shrubs

We list on this page a collection of the choicest and most desirable of the Ornamental Shrubs either for mass or single effect. We grow a large quantity of these at our grounds in Arlington and can furnish first-class stock in every respect. In the varieties listed below we give the height of growth and time of blooming after each one, together with the price, whether strong plants or extra selected.

OTHER HARDY CLIMBERS

Akebia quinata. A very rapid grower; clover-like leaves, and dark fragrant flowers. 50 cts. each.

Amelopsis quinqufolia (the common Woodbine). A native vine of very vigorous growth. Fine for wall covering. 25 cts. each, $2.50 per doz.

Actinidia arguta. A strong-growing climber from Japan, and of the most exceptional value where a quick-growing, clean foliated plant is desired. It will rapidly cover a piazza. Foliage glossy green and flowers white, with a purple center. 75 cts. each.

Aristochocha Siphon (Dutchman’s Pipe). A vine with immense heart-shaped leaves, very dense and when well established, of most rapid growth. Its brown flowers are shaped like a pipe and are very interesting. 50 cts. each.

Bignonia radicans (Trumpet Flower). Handsome scarlet. 35 cts. each.

Bitter Sweet (Celastrus scandens; Roxbury Wax Works). A native climber or twining plant, with large glossy leaves, yellow flowers and clusters of orange capsules fruits. 35 cts. each.

Kudzu Vine. An extremely fast-growing vine, with immense leaves and bearing small racemes of rosy purple, pea-shaped flowers toward the close of August. 50 cts. each, $1 per doz.

Matrimony Vine. This is generally regarded as a climber, as its long, vigorous shoots push upward 8 to 10 feet and then recurve gracefully to the ground, strung along their entire length late in summer with transparent brilliant crimson berries. Good in poor soil. 25 cts. each.

**NEW AUTUMN-BEARING STRAWBERRIES**

Pan-American. A very strong, healthy plant, and most persistent bloomer from May till November. It is better to nip off the first stems as they appear, so that the plant will grow stronger and bear a larger crop after the others are gone. Very soon after the first stems are nipped off more will appear, and they will continue to appear all summer and fall.

The fruit is of good size and nice quality. With a little protection on cold nights, they will bear until almost Thanksgiving. 25 cts. each, $2.50 per doz.

**The Autumn.** A strong, healthy, vigorous plant, which makes a lot of runners. The parent plant produces a enormous crop of medium-sized, handsome fruit, perfect in shape and very dark colored in August, September and October. As this is a pellate variety, it should be mowed. Pan-Americans grown with it to fertilize its blossoms. $2 per doz., $10 per 100, by express.
Vegetables for Hothouse Forcing

Our strains of hothouse vegetables are world-renowned, every seed saved for stock is selected by Mr. H. W. Rawson personally, and we dare claim that no superior strains are offered anywhere in the world.

BEANS

BEETS

Crosby's Improved Egyptian (Arlington-grown). The stock that we offer is Mr. Rawson's personal selection and grown at our seed farm under Mr. Rawson's supervision. Therefore, we have no hesitancy in claiming it as the finest and truest strain of Crosby Egyptian to be had. This variety is probably sown more than any other for an early Beet, as it reaches the desired size in much shorter time. The Beets are of good size, rather flat than round and flesh dark. Also used largely for forking in hotbeds. Pkt., 10 cts.; oz., 15 cts.; 4 ozs., 35 cts.; lb., $1.25.

CARROT

CUCUMBER

Rawson’s Hothouse. The finest strain of Cucumber for forcing and outdoor planting in existence. It is an improvement on Rawson’s White Spine, the fruit being two inches longer and darker green in color. We have attained this result by years of selection, and feel confident that this strain cannot be equalled in this country. The great number of complimentary letters we have received warrant us in making the above claim, and we can not recommend it too highly. Pkt., 25 cts.; $0.024 ozs.; oz., $0.1; 4 ozs., $0.6; lb., $1.0.

Rawson’s White Spine. A very superior strain for forcing and outdoor planting, that up to the time of our sending out Rawson’s Hothouse was considered the best to be had. Fruit very even in size and regular in form; color dark green, with white or light spines running from blossom end. Pkt., 10 cts.; oz., 35 cts.; 4 ozs., $0.5; lb., $2.50. 4 ozs., 40 cts.; lb., $1.25.

LETTUCE

Rawson’s Hothouse. The largest and best plain-leaf variety for forcing. A very choice selected strain of our own selection, adapted for hothouses and hotbeds only. Heads enormous in size, sure to head and not liable to rot in the heart. This variety is probably grown more than any other by the market-gardeners of the vicinity, who are famous for the superior quality of their Lettuce. Pkt., 15 cts.; oz., 50 cts.; 4 ozs., $1.50; lb., $5.

MUSHROOM SPAWN

One brick sufficient for about one square yard

Pure Culture Spawn. Made in the United States by improved method, and is much more reliable, more prolific and earlier than the English Spawn. In fact, it has attained such remarkable success that it is rapidly taking the place of English Spawn amongst the larger growers. We issue a circular giving complete cultural directions with every order for Spawn. Bricks (weighing about 1/2 pounds), each, 25 cts.; doz., $2.50; 25, $4; 100, $15; or $10 per 100 lbs., purchaser paying transit. If by mail, add 10 cts. per brick for postage.

RADISH

Rawson's Scarlet Conical. This variety is one of our finest specialties, and for forcing we are sure it cannot be equaled. For the brilliant scarlet color, short top and uniform shape and size of the Radishes it is unequalled. In flavor it is all that can be desired, being very tender and crisp. Pkt., 5 cts.; oz., 15 cts.; 4 ozs., 40 cts.; lb., $1.25.

TOMATO (FORCING)

Stirling Castle. A very superior variety for either forcing or outdoor culture. Very heavy cropper, of medium size, smooth and round. Color a clear red. Remarkable for its freedom of set and delicious flavor. Our strain of this is the finest to be had. Pkt., 25 cts.; oz., $0.25. 25, $4; 100, $15.

Best of All. Considered by many to be the equal of any other variety in the quality of fruit and productivity. Deep scarlet; a strong grower and producing the very solid Tomatoes in bunches. Pkt., 10 cts.; oz., $0.25; 25, 40 cts.; 4 ozs., $1.50.

Rawson’s High-Grade Fertilizers

WE DO NOT DELIVER ANY FERTILIZERS

THESE CAN BE SHIPPED BY EXPRESS OR FREIGHT ONLY

Our prices are net f. o. b. cars Boston. The prices of fertilizers fluctuate frequently, and we reserve the right to change same without notice.

“Wizard Brand” Pure Pulverized Sheep Manure

We are sole distributors for Boston and vicinity of the above brand of sheep manure, which is absolutely the only pure brand in the market today which is carefully selected, shredded, kiln-dried, screened, passed over strong magnets, pulverized and packed in bags or barrels. Pure sheep manure is the best and strongest in fertilizing and enriching elements of all nature’s fertilizers, containing, as it does, nitrogen, phosphoric acid, ammonium and potash in liberal proportions. It is three times stronger than cow manure. The name “Wizard” stands for absolutely the best in quality, purity and uniformity. Sheep manure is excellent for lawns, railroad stations, golf greens, general garden beds, house plants, bushes, both gardens, public parks, fruits and all farm products.

10 lbs., 10 cents; 5 lbs., 5 cents; 10 lbs., 10 cents; 25 lbs., 25 cents; 50 lbs., 50 cents, $1.25; 100 lbs., $2; ton (in 100-lb. bags), $35; full large barrel, $4.

Rawson’s Lawn and Garden Dressing

A combination chemical fertilizer which is unequalled for either lawn or garden; it is dry and powdery and can easily be applied by any one. It is not only a stimulant to vegetation, but transfers to the plants a lasting healthy appearance. We put up this fertilizer in convenient sizes, so that every one might use it.

5 lbs., sufficient for 500 square feet. $0.30

Ton (2,000 lbs.) in 100-lb. bags. $50.00

Rawson’s Special Lawn Dressing

This preparation is gotten up especially for enriching lawns, and contains only such elements as are beneficial for grasses. For the benefit of our customers who have but a small lawn or a front or back yard, we offer this excellent fertilizer in convenient sizes as follows:

5 lbs., sufficient for 500 square feet. $0.80
10 lbs. " 1,000 " 2.90
25 lbs. " 3,000 " 7.50
50 lbs. " 6,000 " 17.50
100 lbs. " 1/4 of an acre " 3.00
Ton (2,000 lbs.) in 100-lb. bags. $50.00

Pure Canada Unleached Hardwood Ashes

Ashes contain potash and lime, which are not only essential to the plant, but also sweeten the soil and dissolve other plant-food ingredients. Potash and lime are nature’s plant-food. These things have been extracted from the soil by the trees, and now we return them in the shape of ashes. Pure wood ashes is one of the best fertilizers for top-dressing lawns, grass lands and seeding down, also for fruit of all kinds, especially strawberries, peaches and apples. When used on lawns it imparts a rich dark shade of green, destroying insects and bad weeds, particularly moss, which is so common on lawns. 25 lbs., 50 cts.; 50 lbs., 75 cts.; 100 lbs., $1.25.; 200 lbs. (in 2 100-lb. bags), $2.50; ton (2,000 lbs.), $16.

In earload lots of from 15 to 25 tons, at $1.50 per ton in bulk or $1.75 per ton in 100-lb. bags, delivered at any freight station in Massachusetts, Vermont, New Hampshire, Rhode Island, Connecticut and to any station in Maine, except points of the Maine Central Railroad.

Fine Ground Bone. Our bone is made of the best quality of bone and finely pulverized. It is absolutely pure and contains every ingredient, without extraction. It is excellent for lawns, trees, shrubs, roses, flower-beds and general gardens, particularly good for perennial borders. 5 lbs., 25 cents; 10 lbs., 40 cents; 25 lbs., 75 cts.; 50 lbs., $1; 100 lbs., $1.80; ton (2,000 lbs.), $30.

Tobacco Stems Fertilizer. Tobacco stones are worth about four times as much as an equal weight of stable manure. They can be spread and plowed under like ordinary manure, or worked into compost heap. They make a good mulch to put around fruit trees and are good around such crops as melons and squashes. Per bale of about 100 lbs., $2.

Land Plaster. Excellent for composting, fertilizing, also used for preventing bugs from destroying cucumber, melon and squash vines. 5 lbs., 25 cts.; 25 lbs., 50 cts.; 100 lbs., $1; bbl. of 330 lbs., $2.

Nitro-Culture Lime. This article supplies a great want in gardening today. We depend almost entirely on it, to enable us to raise certain flowers and vegetables. Without it their cultures are failures. Most prominent of these are cucumbers, squashes, asters and sweet peas. Its main qualities are that it sweetens and purifies the soil. It should be applied early in spring and also late in fall. It will help in great measure to destroy the obnoxious cutworm. Liberal quantity should be applied, as it is not injurious no matter how much you put into the ground, only beneficial. 100-lb. bag, $1; ton, $15.

All other fertilizers not listed here we can furnish, and we solicit correspondence.

VARIOUS MATERIAL FOR POTTING

Sterilized Potting Soil. This soil has been put to 270° of heat, which absolutely destroys all insects or fungous growths in the soil and is fertilized sufficiently for growing all kinds of plants. This soil is from our greenhouses in Arlington and the same as we use in growing all our plants. ½ pk., 20 cts.; pk., 30 cts.; bus., $1; bbl., $2.

Rotted Fibrous Peat. This has become thoroughly rotted, and is invaluable for potting plants. ½ pk., 20 cts.; pk., 30 cts.; bus., $1; bbl., $2.

PEBBLES. For growing Chinese Lilies or Paper-White Narcissus. Qt., 15 cts.; pk., $1; bbl., $3.50.

SULPHO-TOBACCO SOAP. Should be used freely on all house plants during the winter. By spraying plants thoroughly once a week, it will not only act as a preventive of insects, but also a good fertilizer. Per 1 oz. package, sufficient to make three gallons liquid, 10 cts.; 8 oz. package, sufficient to make three gallons liquid, 20 cts. If wanted by mail, add 5 cents for the 3-oz. and 10 cents for the 8-oz. package.

Orchid Peat, or Fern Root. Bbl., $2.75; bus., $1.50.

Sphagnum Moss. We can furnish at almost any time of year, freshly gathered or dry. Bus., 75 cts.; bag., $1.50.

Charcoal. Lb., 10 cts.; 100 lbs., $5.

This remarkable preparation, when applied to weedy lawns, will adhere to the rough, hairy leaves of dandelions, plantains, etc., and, by absorbing therefrom all the sap, destroy them beyond recovery. Moreover, Climax Lawn Sand goes to the roots of smooth-bladed finer grasses and acts as a valuable fertilizer. The most weedy and impoverished lawn will show a remarkable improvement after a single application. A booklet giving in detail all the merits of this wonderful weed eradicator, explicit directions for use and testimonials from every part of this country, will be gladly mailed free to any applicant.

To popularize this helpful remedy we offer for the first time as a special inducement, a trial sample package sufficient to cover 25 square feet for 25 cents. This includes free delivery anywhere in the United States. The wrapper of this package will be redeemed to the full value of 25 cents with any order of the regular-sized packages of Climax Lawn Sand.

When to Apply. March, April, May, July, August, September and October are the best months, selecting a bright sunny day, with a prospect of 24 to 48 hours settled weather.

When Climax Lawn Sand is applied, no other manure is required.

RAWSON'S "IDEAL" LAWN GRASS

For Fall Sowing

For over ten years we have carried on experiments on our extensive trial grounds at Newton, N. H., with every imaginable variety of grass seed, both from Europe and this country, to ascertain and establish a perfect mixture of grasses which would produce an ideal lawn in New England. We have given particular attention to grasses which grow successfully in northern severe climates; at the same time we have aimed to improve the appearance of the lawn. We have now succeeded and are confident in stating that we offer here the most "Ideal" Mixture of Lawn Grass that is offered in New England for New England. It is an established fact that plants which thrive in New England will grow luxuriantly everywhere, and for that reason we claim that

RAWSON'S "IDEAL" LAWN GRASS

is unrivaled for hardiness, productivity, purity and luxuriance in growth. The grasses used in this mixture are highly cleaned, free from all chaff and are absolutely fresh, insuring the purchaser quick results.

Please note that RAWSON'S "IDEAL" LAWN GRASS weighs 20 pounds per bushel; this in itself is a guarantee of its purity.

THE MAKING OF A LAWN is a pamphlet by our Mr. Rawson, which gives to the minutest detail all possible information on the preparation and formation of a lawn, also on the care of an established one and the renovation of an old one. Every package of Lawn Grass, no matter how small, contains one of these pamphlets. In order to introduce our Lawn Grass widely, we are willing to deliver free to any post-office or express office in the United States, any quantity up to four quarts, at the price given below.

PRICES: Pt. 15 cts., qt. 25 cts., 2 qts. 45 cts., 4 qts. 85 cts., pk. $1.50, bus. of 20 lbs. $5

QUANTITY REQUIRED FOR A NEW LAWN

One quart is sufficient to sow a plot 300 square feet or 15 x 20 feet; one peck 2,000 square feet or 50 x 40 feet; five bushels, an acre. For renovating, use half the quantity.
Rawson's Arlington Lawn Grass

has stood the test of our customers for the past twenty years and must be considered a “quality mixture.” When we first introduced this mixture, quality grasses were in imperative need and we selected for this mixture a limited number of the purest and heaviest grasses, which would produce a rich velvety sward in the shortest possible time. It can easily be seen that this mixture is quite different from the preceding one, as it weighs 32 pounds per bushel. We highly recommend this mixture for a quick-producing lawn and one that will retain its beauty for a long time. 1 qt. (will sow 600 sq. ft.) 30 cts.; 2 qts. (will sow 1,300 sq. ft.) 55 cts.; 4 qts. (will sow 2,700 sq. ft.) $1; 8 qts. (will sow 5,400 sq. ft.) $2; 1 bus. (2 bus. will sow an acre) $7.50.

Rawson's Special Mixtures of Grasses for Special Places

We have in our employ a man who has devoted his lifetime to the planting and perfecting of lawns, terraces, golf links, bowling greens, lawn-tennis grounds, etc., and under whose personal supervision our different mixtures of grasses as offered below are prepared. For this reason we claim our mixtures should give perfect satisfaction.

Rawson's Special "Shady Location" Lawn Grass

Every lawn has some shady spots where the regular grasses will not be permanent. Under above heading we offer a mixture which is unsurpassed. Qt. 35 cts., free by mail; 2 qts. 65 cts., free by mail; 4 qts. $1.25, free by mail; 8 qts. $2, bus. $7. This mixture weighs 20 pounds per bushel.

Rawson's Special Putting Green Mixture

Suitable both for Putting Greens and Bowling Greens. Pk. $1.75, bus. $6. This mixture weighs 25 pounds per bushel.

Rawson's Special Mixture for Lawn Tennis, Croquet, or Polo Grounds

A perfect mixture for such purposes. Pk. $2, bus. $7. Weight per bushel 20 pounds.

Rawson's "Terrace Turf" Lawn Grass

This mixture consists of the best close-growing, deep-rooted varieties, which will not be washed away during heavy rains, at the same time produce a rich velvety sward. Qt. 35 cts., free by mail; 2 qts. 65 cts., free by mail; 4 qts. $1.25, free by mail; 8 qts. $2, bus. $7. Weight, 20 pounds per bushel.

NEW SEEDLING CROCUSES

Crocuses are such brilliant and beautiful flowers that one need not occupy space with their praises. Their use in grass is necessary if we are to enjoy our gardens to the full. While the popular varieties, whose names will be found on another page, will retain their place in the garden, they will be largely supplemented by these new seedlings listed below. They are distinct for their colorings, for some of the shades offered here have never been known among Crocuses before. They are all giants in size. One of our customers wrote us last spring: "The new Seedling Crocuses purchased of you last fall are just now in bloom and are admired by everybody. One of our neighbors wanted to know how we came to have such splendid early Tulips, showing the size of bloom, and, furthermore, each bulb produces from four to six flowers."
